RECALL (11/14)

Reason/Information:

Musculoskeletal Transplant Foundation (MTF) issued a Voluntary Recall on the following materiel (See Image on Message under Additional Documentation/Attachment). Reason: The tissue forms were labeled with a two year expiration date based on accelerated aging studies; however, real time aging studies revealed that the expiration date on the tissue should be one year from the date the tissue is placed into its container.

Disposition/Instructions:

MTF medical staff does not believe these tissues represent a risk to recipients. The staff at MTF feels it is prudent to voluntarily retrieve any units from the materiel codes that have an expiration date of November 2014 to November 2016. No further actions are warranted if these tissues have been transplanted. MTF has already contacted a representative from customer facilities by telephone to verify the status of the tissues customer facilities received and to expedite the return of the units that remain in inventory. MTF will take the necessary actions to advise the appropriate regulatory agencies of the status of tissues distributed to customer facilities.

For general questions call 800-433-6576 or 732-661-0202.

Note: This issue involves the integrity of the package, not the biologic properties of the tissue.

Note: Materiel expires November 2014 through November 2016.
