

New Equipment

Dentsply Professional recently introduced the **Midwest® Stylus™ ATC** (Adaptive Torque Control) system consisting of a high speed fiber-optic handpiece, coupler and tubing, a power supply and a control unit. The system is designed to combine the best attributes of air turbine and electric handpieces. The ATC system control unit purportedly uses sensors to continually monitor the bur load and change the air pressure supplied to the handpiece which automatically adjusts torque to maintain peak power over a broader range of speeds. The electrically powered control unit is most easily mounted externally under the dental unit tray, although components can be removed from the control box and independently integrated internally into the dental unit tray or junction box. Installation requires temporary use of a pressure gauge to adjust the input air pressure supplied to the control unit optimally to 70-75 psi. Two handpieces are available for this system: the Midwest® Stylus™ ATC 990 (Mini Head) and the ATC 890 (Mid-sized Head). The system has an integrated power-optic supply for fiber-optic illumination. The Midwest® Stylus™ ATC has a three-year warranty on the control unit and the integrated coupler and tubing. There is a two-year warranty on handpieces. The control unit's power supply requires access to a grounded three-prong AC electric outlet, 100-240 VAC, 50/60Hz.

Item (Order Number)	Contents	Suggested Retail Price	Government Price
Stylus™ ATC 990 Starter Package (883200)	2-Mini-sized Head Handpieces, 1-Control Source, 1-Power Cord, 1-Integrated Coupler and Tubing, Installation Kit, Maintenance Coupler and Nozzle	\$3,500.00	\$2,110.55
Stylus™ ATC 990 Handpiece (882300)	1-Mini-sized Head Handpiece	\$1,375.00	\$829.15
Stylus™ ATC 890 Starter Package (883100)	2-Mid-sized Head Handpieces, 1-Control Source, 1-Power Cord, 1-Integrated Coupler and Tubing, Installation Kit, Maintenance Coupler and Nozzle	\$3,500.00	\$2,110.55
Stylus™ ATC 890 Handpiece (881300)	1-Mid sized Head Handpiece	\$1,375.00	\$829.15
Stylus™ ATC Replacement Control Unit with Coupler and Tubing (880100)	1- Control Unit with Coupler and Tubing	\$1,250.00	\$753.77
Stylus™ ATC Replacement Power Supply (880200)	1-Power supply	\$207.00	\$124.62
