

New Infection Control Products

Latex-Free Procedure Paks are available from Stradis Healthcare. The Custom Paks can be built to the customer's exact specifications with regards to colors, sizes, quantities, and brand preferences. The Procedure Paks are reported to simplify ordering, reduce on-hand inventory, and stay within budget requirements. The Paks reportedly contain most of the disposable items used in dental procedures such as gauze, cotton rolls, masks, gloves, face masks, patient napkins, headrest covers, barrier products, handcare products, autoclave bags, and saliva ejectors. Custom Dental, Hygiene, and Surgical Paks are available. Latex-free package contents and pricing can be found below; for other Custom Procedure Packs contact Stradis Healthcare.
