

New Infection Control Products

Seal Shield has several washable medical grade keyboards and mice available. The **Seal Shield™ Machine Washable Medical Grade Keyboard** is reportedly fully submersible with laser-etched keys that will not fade from washing. It also reportedly has retractable feet to reduce the risk of carpal tunnel syndrome, custom drain holes, and a natural look and feel. According to Seal Shield, in addition to the above features, the **SILVER SEAL™ Antimicrobial/Washable Keyboard** has built in antimicrobial protection that protects between washings to provide maximum protection from cross contamination. The **SEAL SHIELD™ Medical Grade Washable Mouse** reportedly has five buttons: left, right and a 3 button SEAL SCROLL system with page grabber technology, and an ergonomic design and SEAL SKIN™ Comfort Grip silicon to reduce the risk of carpal tunnel syndrome. According to Seal Shield the **SILVER SEAL™ Medical Grade Washable Mouse** has Silver Seal antimicrobial protection virtually eliminating harmful bacteria and protects between washings in addition to the properties already mentioned for the SEAL SHIELD™ mouse. Seal Shield offers a one-year limited warranty with extended warranty coverage available upon request.
