

## New Infection Control Products

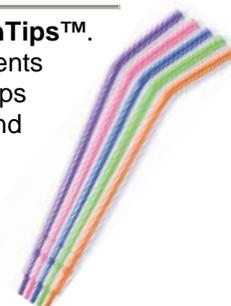

**ShortCut** from DUX Dental is an all-in-one scissors-free delivery system for retraction cord. According to DUX Dental, the user is able to dispense and cut the GingiBRAID<sup>+</sup> retraction cord with one hand by dialing the desired amount and then squeezing the sides to cut. There is a built-in cutter eliminating the need for sterile scissors. DUX Dental recommends 3-4 clicks for anterior teeth and 4-5 clicks for posterior. Users also have the option of pulling cord to the desired length. Infection control is reportedly improved because ShortCut is easily disinfected and the cord is not exposed to external conditions. Additionally, the waterproof label is easily cleaned and won't wear off with repeated disinfections. ShortCut is available in cord sizes 0, 1, and 2 with Epinephrine/Alum 87, Aluminum Potassium Sulfate or non-impregnated for \$18.99 (suggested retail) and \$11.40 (government).

Sultan Healthcare recently introduced their new disposable air/water syringe tips—**FlashTips™**. According to Sultan Healthcare FlashTips™ are quick and easy to change between patients and for most syringes, converters are not required. These disposable air/water syringe tips reportedly have a locking indicator and wide locking groove to ensure the tip is in place and have smooth, rounded edges to prevent harm to both patients and equipment. The manufacturer claims that the inner tube does not shift under pressure, the separate air and water chambers minimize crossover, and they are built for strong cheek retraction. FlashTips™ are available in five colors (blue, purple, pink, orange and green) in each pack.

Product	Quantity	Suggested Retail/Government Price
FlashTips™	Case of 16 boxes of 250	\$880.00
FlashTips™	Case of 4 boxes of 1200	\$960.00

**PUREVAC SC** evacuation line cleaner is formulated specifically for systems with amalgam separators. According to Sultan Healthcare, PUREVAC SC is the only recommended cleaner by SolmeteX for their amalgam separators. The non-foaming cleaning action is reportedly compatible with all amalgam separators. The product is advertised as having a fresh citrus scent and as being biodegradable, safe, and easy to use. Sultan Healthcare claims that daily use of PUREVAC SC will keep the trap and evacuation lines open, prevent build-up that can hinder the system's performance, and help keep the system operating properly and more efficiently.

Product	Quantity	Suggested Retail Price	Government Price
PUREVAC SC	Case of Six 2-Liter Bottles	\$410.00	\$246.00
PUREVAC SC	Case of Four 5-Liter Bottles	\$606.67	\$364.00
