

New Laboratory Products

Whip Mix Corporation recently introduced the **InStep Wax System**, a new line of waxes and complementary products. The manufacturer claims that InStep products have been specially designed and formulated to work with one another to optimize the waxing process and reduce defects in castings. The InStep Wax System contains four different waxes: blockout wax, dipping wax, carving wax and margin wax. The carving wax comes in two colors gray and beige (the beige wax is reportedly scannable). Whip Mix also offers an InStep Quick Start Introductory Kit containing Blue Dipping Wax, Red Blockout Wax, Red Margin and Grey Carving wax (each 25 grams), PDQ Blue Spacer and InStep Die Lube (each 14 mL).

Item	Item Number	Suggested Retail Price	Government Price*

CMP Industries has recently introduced the **Colloid Saver 3.5 Hydrocolloid Duplicator**, which is an agar-type dispensing unit. According to the manufacturer the Colloid Saver 3.5 Hydrocolloid Duplicator chops, conditions and returns hydrocolloid to storage temperature in about two hours and has preset programs for virtually any colloid. CMP Industries reports that the unit has a flexible capacity ranging from 1 to 3.5 gallons and has a high volume, no drip, no clog dispensing nozzle, ensuring trouble-free pouring. It also features a USB for future software upgrades, a lighted pour area with a laser sight line and a corrosive proof front panel. The Colloid Saver 3.5 Hydrocolloid Duplicator (item number 40811) can be purchased for \$4,750.00 (suggested retail) and \$4,275.00 (government).
